Dear Ms. Bose,

I am writing to you in regards to the Cove Point project. As far as the community is concerned, I believe it has been shown, beyond the shadow of a doubt, that this project would be an enormous benefit in a number of ways. The jobs that would be created are much-needed, and the boost in tax revenue would help in our efforts to improve the roads, park preservation, and other community development funds. My wife, Gail, has lived here in the area for 59 years. She has seen Cove Point come and prove themselves to be thoughtful in their consideration of the environment and the community, and she has seen the county's growing necessity for jobs and money in recent years. Do not delay anymore; we need this project for the community. Thank you.

Sincerely,

Vaughn Reid
